SPRINGFIELD – State Rep. Karen May (D-Highland Park) (right) receives a plaque from Illinois Environmental Council Executive Director John Goldman for being one of only 14 members of the House of Representatives to have a 100% pro-environmental voting record.

“It is important that we increase efforts to preserve natural resources and protect our environment to ensure a healthy and safe world in which our future generations can grow and thrive,” said May. “I will continue to work with the Illinois Environmental Council to push the General Assembly to adopt higher environmental standards.”
